Additional information

¹**The scheme responsible for protecting your deposit.**

²**General coverage level**

If a deposit becomes unavailable in a general and permanent manner because a credit institution is unable, as determined by the relevant supervisory or judicial authority, to meet its obligations to its depositors under the legislation in force, depositors are repaid by the Hellenic Deposit and Investment Guarantee Fund.

The payable compensation is subject to an aggregate limit of one hundred thousand euro (EUR 100,000). This means that all the deposits by the same depositor with the credit institution are added to determine the coverage level. If, for example, a depositor holds EUR 90,000 in a savings account and EUR 20,000 in a sight account, the compensation will be EUR 100,000 only.

This method also applies when the credit institution operates under several trademarks. T.C. Ziraat Bankası A.Ş. Athens Central Branch operates also under the trademark Ziraat Bankası, Ziraat Bank, T.C. Ziraat Bankası A.Ş.

This means that the aggregate deposits at one or more of these trademarks are covered up to EUR 100,000.

³**Special limit of coverage**

For more information: www.teke.gr

⁴**Coverage limit for joint accounts**

In case of joint accounts, the limit of EUR 100,000 applies to each depositor.

For more information: www.teke.gr

⁵**Compensation**

The amount of compensation will be made available by TEKE within seven (7) working days after the decision of the competent supervisory or judicial authority as provided for by law. In certain cases of deposits this period may be extended for a maximum of three (3) months.

A depositor's right to compensation is subject to a limitation period of five (5) years after the above deadlines.

In calculating the amount of compensation, the balances on deposit accounts are set off against any counterclaims of the credit institution on the depositor, if such counterclaims have become due and payable on or before the date when the deposit became unavailable.
